

KlenS™ - Fabric Sanitizer

Maintaining proper hygiene levels is not just limited to washing your hands frequently. One needs to ensure the clothes are clean, the surroundings are hygienic and more. When one is out on work or outside home for any reason, it is not possible to change clothes frequently. So having disinfectant spray for clothes is a perfect option when you are on the go.

If you prefer using a sanitiser after washing clothes, you can use KlenS™ Fabric sanitiser to ensure that the clothes you wash are free from Germ & other impurities. This disinfectant is gentle on clothes and will ensure that clothes look good and are free from germs right after washing.
