

Hospital Disinfectant

Adhvit Hygienics makes a variety of hospital disinfectants for use in healthcare clinics, health centers and Hospitals. KlenS™ Hospital Disinfectant reduces the risk of Healthcare Associated Infections (HAIs). It protects hard and soft surfaces from dangerous pathogens & eliminates bad odor instantly. It helps to prevent the spread of pathogens that can contribute to HAIs. You can also disinfect hard, nonporous surfaces in 5 minutes, and inhibit the growth of mold and mildew on privacy curtains, upholstered furniture and other soft surfaces.

KlenS™ Hospital Disinfectant is a 100% natural product, free from alcohol and gelatin. It consists of silver nano particle in aqueous phase.

Whether you use KlenS™ Hospital Disinfectant and Sanitizer in a hospital, dental office or other facility, its germ-killing power and fragrance will give you confidence that your surfaces are clean and refreshed.

Key Highlights
