KlenS™ Multi-Purpose Disinfectants (Outdoor)

KlenS™ MPDO is a multipurpose disinfectant concentrate that cleans, deodorizes and disinfects in one labour saving step. These disinfectants used as Foggers are the pinnacle of quality and performance in portable cold fogging. All KlenS™ MPDO produces a stable, uniform fog used to efficiently treat both open spaces and object surfaces. KlenS™ MPDO is highly concentrated but has been specially formulated with ingredient which is non-foaming, non-skin irritating and environmentally friendly. KlenS™ MPDO is made of powerful Silver 100% Nanoparticle which offers high disinfecting capabilities through its antimicrobial, antibacterial and anti-fungal properties.
