

Extreme Simple Green® Aircraft & Precision Cleaner

Extreme Simple Green Aircraft and Precision Cleaner is a non-caustic, water-based breakthrough solution for cleaning and degreasing metals, plastics, and more. Its combined high soil capacity, superior grease-cutting ability, and clean-rinsing formula prevent redeposition of soils, ensuring fast, effective, and high precision cleaning. Designed to inhibit corrosion during cleaning this formula can be used on aluminium, carbon fibre, high tech alloys, structural metals, paints, protective coatings, and more. Our optimized formula avoids oxidizing finishes, rusting surfaces, and degrading plastics, making it ideal for maintaining structural metals, hoses, seals, and factory finishes.

- Superior grease-cutting formula cuts through tough soils
- Non-flammable and petroleum distillate free
- Optimized for metal, plastic, rubber and painted surface cleaning
