Crystal Simple Green Industrial Cleaner & Degreaser

Versatile, high performance cleaning and degreasing concentrate cuts through tough grease, oils, carbon and other built-up grime

- The non-toxic & biodegradable formula contains no added color or scent.
- Cleans, degreases and eliminates stains from water-safe surfaces in and around food processing areas including: floors, drains, walls, doorways, ceilings, sinks, processing equipment, chutes, flumes, conveyors, compactors, tanks, pumps, presses, rollers, appliance exteriors and utensils.
- Quickly eliminates thick grease, animal fats, oils, carbons, starches, sugars, proteins, and other organic soils without heavy scrubbing.
- The non-abrasive, non-corrosive, non-caustic and non-flammable formula can be used on metal, plastic, concrete, rubber, synthetics, finished wood, painted surfaces, tile, laminates, stone, porcelain, fabric and more.
- Removes carbon and baked-on residue from cooking and smoking equipment.
- Can be used as a stain pre-treat and soak for laundry.
- Removes grease, grime, lubricants and more from equipment and machinery.
- The cost-effective concentrate can also be used in mechanical cleaning equipment such as floor scrubbers, pressure washers, steam extractors, foamers, parts washers and carpet cleaners.
- The clean rinsing formula meets rinsability standards for facilities following Good Manufacturing Practices (GMPs).

Foaming Coil Cleaner (Liquid & Aerosol)

Professional-strength, self-rinsing coil cleaner helps keep equipment at optimum performance levels

- The non-fuming foam clings to hard-to-reach surfaces, penetrating and removing the dirt, grease and grime that can cause clogs, impede heat transfer or otherwise cause equipment to malfunction.
- The non-corrosive and non-flammable formula is overspray safe for most building and roofing materials.
- The cleaner is self-rinsing on condensate producing coils.
- Helps to maintain heating, ventilation and air conditioning (HVAC) systems as well as refrigeration, freezer, steam and boiling equipment.
- Ideal for use on evaporator and condenser coils as well as fan blades, blowers, grills, heat exchangers, cooling towers, vents, electronic filters, registers, drain pans and piping.

Stainless Steel Cleaner & Polish

The non-toxic and non-abrasive formula cleans, polishes and protects in one simple step with no wait time before wiping

- Works on a wide variety of metals including stainless steel, aluminum, chrome, nickel, alloys, brass, copper and more.
- Removes dirt, grease and hard water stains from sinks, faucets, countertops, appliances, grills, BBQs, storage racks, serving carts, display cases and more.
- The easy spray and wipe application dries streak free and contains an advanced polymer that helps prevent future smudges and fingerprints from showing.
- Will not leave a sticky or dulling residue on surfaces even after repeated use.
- The formula does not contain oily, toxic and flammable petroleum distillates commonly found in similar products.

Registration Definitions

Simple Green cleaning products are independently certified by NSF International. It's just one step in verifying our commitment to making cleaning solutions that provide superior performance while ensuring employee, equipment and environmental safety.

A1: A general cleaner for use on all surfaces in and around food processing areas, where its use is not intended for direct food contact.

A2: A cleaner for use in soak tanks or with steam or mechanical cleaning devices in and around food processing areas, where its use is not intended for direct food contact.

A4: A floor and wall cleaner for use in and around food processing areas, where its use is not intended for direct food contact.

A7: A metal cleaner and polisher for nonfood contact surfaces in and around food processing areas.

A8: A degreaser or carbon remover for food cooking or smoking equipment, utensils, or other associated surfaces in and around food processing areas, where its use is not intended for direct food contact.

B1: A laundry product for fabrics contacting food.

C1: A general cleaner and degreaser for use in inedible product processing areas, non-processing areas, and/or exterior areas of food processing establishments. It can be used on equipment that will be returned to a food processing area provided it is washed and rinsed first.

P1: This product is acceptable for use as a sealant in and around food processing areas.
