Liquid Gold For Your Engine

SAE 20W-50 CH4

Description

ETON SAE 20W-50 CH4 is a multi grade semi synthetic diesel engine oil for heavy-duty diesel engines. Formulated using nano additive technology and high-quality virgin base oils to meet current specifications and provide complete protection for all new and old generation vehicles.

Features

- Helps remove sludge from dirty engines
- High viscosity to reduce leaks in older, high-mileage engines
- Designed to provide consistent engine performance
- Features High Resistance To Foaming And Corrosion
- Provides superior low to high-temperature performance

SAE 15W-40 CI4

Description

ETON SAE 15W-40 CI4 is a Premium multi grade semi synthetic diesel engine oil for heavy-duty diesel engines. Formulated using europe standard additives and technology , high-quality virgin base oils blend to meet current specifications and provide complete protection for all new and old generation vehicles.API CI-4 is a higher quality oil than the previous diesel oil categories

Features

- Low emmision
- Helps remove sludge from dirty engines
- High viscosity to reduce leaks in older, high-mileage engines
- Designed to provide consistent engine performance
- Features High Resistance To Foaming And Corrosion
- Provides superior low to high-temperature performance

API SN 5W-30

Description

Eton Motor Oils are designed with high-quality synthetic base stocks and top-of-the-line additive technology to provide maximum protection for today's modern engines and are formulated to meet the common requirements for U.S., European, and Japanese cars and light trucks with gasoline engines. Eton Full Synthetic 5W-30 Motor Oil Recommended for use in cars and light trucks with gasoline and gasoline turbocharged engines where API SN and all prior specifications are required.

Features

- Most advanced chassis formula for high performance engines
- Provide higher levels of cleaning and protection
- Helps to improve and retain fuel economy
- Protects vehicle emission system and turbo charge components
- Proven performance across a variety of driving conditions
- And temperatures

API SN 5W-40

Description

Best for modern gasoline and diesel engines with and without exhaust gas turbochargers. For the protection and value retention of the engine during long intervals between oil changes and with high loads. Low-viscosity high-tech low-friction motor oil with high shear stability. Combined with innovative additive technology and the special additives. Reliably prevents the formation of deposits, reduces frictional losses in the engine and provides optimum protection against wear. The results are savings in fuel and an extended service life for the engine.

Features

- Helps remove sludge from dirty engines
- High viscosity to reduce leaks in older, high-mileage engines
- Designed to provide consistent engine performance
- Features High Resistance To Foaming And Corrosion
- Provides superior low to high-temperature performance

API SN 20W-50

Description

Eton 20W-50 Semi Synthetic car lubricant is suitable for use in automotive gasoline engines where the manufacturer recommends an API SL or earlier specification 20W-50 lubricant.

Features

- Keeps the engine clean
- The car oil that provides protection against engine sludge for the best engine performance.
- Its formulation minimizes the formation of deposits
- Helps minimize oil consumption.
- Provides superior low to high-temperature performance

API SN 10W-40

Description

A premium performance fully synthetic oil for gasoline car engines.its thermal stability means it lasts longer ,resulting in longer oil-change Periods.

Features

- High fluidity and low viscosity
- Helps remove sludge from dirty engines
- Designed to provide consistent engine performance
- Features High Resistance To Foaming And Corrosion
- Provides superior low to high-temperature performance
